Rockets Out Of School Club

Welcome to Rockets

Rockets runs after school from 3.15pm till 6pm Monday to Friday and before school club from 8am till 8.45am. In order for us to provide your child/children with the very best care we have written this parent pack so that you can understand how we work and how you can help us. We hope that your child/children have a happy and rewarding time with us here at Rockets.

Our aim at Rockets is to provide a happy, safe, warm and stimulating environment for all children to play, learn and develop freely with confidence and enjoyment. Each child is valued as an individual. We will help children to develop responsibility for themselves and their actions, to become competent, confident, independent and co-operative individuals.

We will also encourage children to have a positive attitude and respect for both themselves and others. We want to promote a productive relationship with parents/carers and work in partnership with you to provide high quality learning, play and care for your child/children.

Rockets is committed to meeting the needs of parents and carers by listening and responding to their views and concerns, keeping them informed of our policies and procedures, including opening times, fees and charges, and programmes of activities.

Sharing and discussing their child's achievements, experiences, progress and friendships, along with any difficulties that may arise.

Rockets is committed to providing:

- care and activities that put the needs and safety of children first.
- a programme of activities that is interesting, educational, stimulating and fun. activities that promote each child's social, physical, moral and intellectual behaviour.
- access to a variety of facilities and equipment under safe and supervised conditions.
- a staff team that is experienced, well trained and properly supported.
- an environment where no child is bullied or suffers discrimination in any form.

Learning is play and play is learning:

Rockets provides a well-planned and organised play environment that offers children rich and stimulating experiences, alongside opportunities to explore, experiment, plan and make decisions for themselves. The programme of activities will recognise and take into account the differing ages, stages, interests, backgrounds and abilities of the children.

Activities are carefully planned to allow children to build on their natural curiosity, advance their thinking, use their imagination and develop positive social relationships.

At all times, the club will recognise a child's individuality, effort and achievement. Wherever possible, children will be involved in the process of planning activities so that the programme reflects their opinions, and so that children feel some ownership over the club.

Rockets and all its members of staff are committed to the principles of involving and consulting children whenever decisions are made within the club that affect them. We at Rockets believe that actively promoting the participation of the children in the decision making process is beneficial to children, staff and the club as a whole.
